

Marborex[®]
wall and ceiling panels

Marborex[®]

Stylish and practical - Marbrex panels are available in a wide range of colours and designs. Whether the look you require is traditional or contemporary, there is sure to be a design suitable for your home.

Time-saving – Easy to install, Marbrex wall panels can be fitted over the top of existing tiles, require no grout and make it possible to transform a room in half the time required for tiling.

Versatile – Suitable for any room setting, Marbrex wall panels work equally well in residential, retail and commercial settings.

Beneficial – The Marbrex panelling system is waterproof, easy to clean, hygienic, lightweight, quick to install and cost effective.

The sophisticated Manhattan continuous marble design sits comfortably in both traditional and contemporary settings. This sleek, classic matt finish creates a beautifully opulent environment in which to relax.

manhattan

Luxurious and timeless, Marble remains a classic choice in the home. Our Florence and Roma designs achieve the designer demeanor of marble without the associated price tag.

florence and roma

The neutral yet striking 3D effect of the matt Grey Mosaic tile design adds stunning interest to a bathroom. The variegated shades of the grey stone tiles offset bathroom furniture beautifully.

grey mosaic

Marble with a twist - Our Kensington square and Oslo hexagonal tile designs add an interesting and quirky twist to our classic marble designs. While remaining neutral, both designs create detail that stands out!

oslo and kensington

bombay

fired earth

Our Bombay tile effect panels have a matt textured surface that emulates stone providing the rustic charm of natural materials without associated weight. Whilst the semi-matt metallic finish of our Fired Earth design portrays a dramatic, glamorous ambience.

bombay and fired earth

Natural materials are beautiful but often unsuitable for areas prone to moisture. Our gloss finish White Wood tongue and groove style panels create a subtle wood effect.

Our Rustic White design offers a textured wood effect that replicates the look and feel of white-washed timber boards adding a little cosy country charm to any room. Install vertically in wet rooms or horizontally in other areas.

white wood and rustic white

ciment deux

ciment

The Ciment ranges encourage originality with their coordinating tile designs. These matt finish panels can be used to create zones in a room while maintaining a sense of cohesion.

ciment deux and ciment

Metro style tiles are renowned in the world of interiors as an iconic and classic design.

Achieve this look with either our crisp, bevel edged Subway design or our glazed finish Artisan tile panels.

subway and artisan

whitestone

moonstone

The modern, matt finish featured on the Whitestone, Moonstone and Sandstone wall designs contributes to their natural stone appearance.

The panels are available with two different sizes of offset tile designs. These can be used imaginatively to create zones in a room.

whitestone and moonstone

The White and Taupe Dune stone tile effect panels have a modern matt finish providing a sense of elegant sophistication in a room.

This offset tile effect adds subtle, timeless interest to walls.

taupe dune and white dune

travertine classic

travertine mosaic

Travertine stone remains an excellent choice when it comes to bathroom design. The soft, muted tones of the Travertine Classic and Mosaic wall panels create a neutral, calming backdrop in a bathroom.

travertine classic and mosaic

Marbrex is a lightweight paneling system for the walls and ceilings of residential or commercial buildings.

Covering all bases, designs range from contemporary to traditional in a variety of colours and finishes.
